## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/31/2008 has been entered.

### ***Allowable Subject Matter***

2. After further search and thorough examination of the present application and in view of the prior art of record, claims 1-35 are found to be in condition for allowance.

### ***Reason for Allowance***

The following is an examiner's statement of reasons for allowance: The present invention relates to a user-friendly and efficient keyboard which allows a character input system uses a real or virtual keyboard having a plurality of keys, at least some of which are assigned to at least one Brahmi-based script character, and at least one key being assigned a halant. The keyboard system may also be adapted for use with other language scripts that are derived from the Brahmi script.

To achieve this inventive goal, independent claim 1 identifies the distinct features "at least some of the keys each being assigned at least one Hindi script character, and at least one key being assigned a halant, the key assignments being spatially grouped on the keyboard according to their phonetic characteristics."

Independent claims 21, 25, 30 and 31 identify the distinct features “wherein Brahmi-derived script communications may be inputted quickly and efficiently as a result of the arrangement of character keys and a simplified character set provided through use of the halant character.”

Independent claim 26 identifies the distinct features “a Brahmi-derived script keyboard comprising a plurality of keys, at least some of the keys each being assigned at least one Brahmi-derived script character, and at least one key being assigned a halant, the key assignments being spatially grouped on the keyboard according to phonetic characteristics of the characters.”

Independent claim 29 identify the distinct features “a group of vowel keys each being assigned a Hindi script vowel, the vowel keys comprising keys corresponding to the number-row on a standard keyboard; a first Varg group of phonetically-related consonant keys comprising keys corresponding to Q-W-E-R-T on a standard keyboard; a second Varg group of phonetically-related consonant keys comprising keys corresponding to A-S-D-F-G on a standard keyboard; a third Varg group of phonetically-related consonant keys comprising keys corresponding to Z-X-C-V-B on a standard keyboard.”

3. The first cited reference, Chang (U.S. Pat. No. 6,281,884) discloses a general Chinese phonetic keyboard, wherein some of the keys being assigned a chinese phonetic characters, the key assignments being spatially grouped on the keyboard according to their phonetic characteristics. The second cited reference, Erase (U.S. Pat. No. 4,193,119) discloses a typewriter keyboard wherein each character or group of characters bears a predetermined phonetic or semantic relationship.

However, the features “Hindi script character, one key being assigned a halant” disclosed in the instant application (No. 10/038,529) are neither anticipated nor rendered obvious by the prior art of record.

These limitations, in conjunction with all other limitations of the base claims were not shown by, would not have been obvious over, would not have been fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
